WATER HARVESTING : ISSUES, POLICY AND CONSTRAINTS

A.K. Singh and D. Dinesh

Conservation and efficient management of water resources is crucial for countries with predominant agrarian economies where development of sustainable agriculture is essential for overall growth, alleviation of poverty and food security.

Rivers, lakes and ground water constitute the primary source of water for mankind. However, these constitute very much less than one percent of the available water on the earth at any given point of time. The problem of managing such a scarce resource is very difficult and further accentuated by the vagaries of rainfall. As a result, floods and droughts occur. People, in the past have successfully practiced harvesting and conservation of this precious resource in storage structures to alleviate/mitigate droughts. Such storages can be underground like wells, on the surface like ponds and reservoirs and directly carrying from streams to long distances through canals etc.

Water management issues differ with rainfall terrain characteristics and socio-

economic conditions of the people. Thus, within India these issues differ between North and South. Large areas of North India are covered by perennial rivers which carry the monsoon water during rainy season and melted snow in summer through fertile alluvial plains. Hence construction of canals fed by the rivers was carried out, to improve water supplies. Well construction was also easy because of geo-morphological conditions in the region and as such we find references to wells or 'Kupas' in this area

since vedic times. Similarly, in hill areas, people have tapped water from hill streams or springs known as 'Guhls' ranging in length from 1 km to 15 km with discharges of 15 to 100 lit/sec in Meghalaya, irrigation of plants by tapping water from streams using 'bamboos' still exists.

In contrast, in Western, Central and South India as the rivers are seasonal and rainfall being less, harvesting rainwater against embankments and into tanks/lakes to create surface storages

was extensively practiced. This was also partly due to limitations in developing well irrigation due to the presence of hard granites and gneisses.

This clearly suggest that Indians over centuries developed a range of techniques to harvest every possible form of water, from rain, stream, river and floods. Some of the popular systems practiced in the arid and semi-arid region are described below. Water harvesting has been a traditional practice based on sound principles of engineering in the arid regions in the form of storage structures like Nadi, Tanka, Kundi, Khadin, Tanks, Anicuts and lakes.

Nadi

Nadies (village ponds) are constructed for storing runoff water from catchments during rainy season by putting an earthen embankment across the stream. The capacity of these traditional Nadies ranges from 1200 to 15000 cum depending upon the physio-graphic conditions and rainfall. In the western part, Nadies are mainly used for domestic water supplies and livestock consumption.

CAREER IN INDIAN ARMY

The Indian Army is the largest amongst the three services of Indian Armed Forces. The motto of the Indian Army is "Service Before Self". The Indian Army has a rich history of valour and supreme sacrifices to its credit both in the battlefield and in its contribution to nation building. It has fought a number of successful battles globally and is amongst one of the largest contributors to the United Nations Peace Keeping Operations. Recruitment in The Indian Army is open for all citizens irrespective of caste, religion, class, community and sex.

Career Opportunities

The Indian Army offers a variety of options for youth to join as a Commissioned Officer or Person Below Officer Ranks (PBOR). Employment opportunities exist for an eighth class pass candidate as well as for a candidate with Post Graduate degree. The Indian Army offers opportunities to youth to join in combat arms, combat support arms or services.

Career as a Commissioned Officer

Career opportunities as an officer are available under Union Public Service Commission (UPSC) Entries, Non UPSC Entries, Service Entries and Departmental Entries. Option does exist to join as Permanent Commissioned (PC) Officer or as a Short Service Commissioned (SSC) Officer, both in technical and non-technical categories.

UPSC Entries:

- National Defence Academy (NDA) (10+2)
- Indian Military Academy (Direct Entry)
- SSC (Non Technical) - Men and Women

Non UPSC Entries:

- Technical Entry Scheme (TES) (10+2)
- Technical Graduate Course (TGC)
- Short Service Commission (Technical) - Men & Women

- Short Service Commission (NCC Special) - Men & Women
- Short Service Commission (Judge Advocate General) - Men & Women
- University Entry Scheme (UES)
- Army Education Corps (AEC)

Service Entries: These entries are open for already serving soldiers.

- Army Cadet College (ACC) This entry is open to serving soldier of three services (Indian Army, Indian Navy and Indian Airforce)
- Permanent Commission (SL)
- Special Commissioned Officers (SCO)

Departmental Entries: These entries are for following services:-

- Remount & Veterinary Corps (RVC)
- Territorial Army (TA)
- Army Postal Service (APS)
- Army Medical Corps (AMC).

Selection Process:

For UPSC Entries, notification is published under the aegis of UPSC, 12 months in advance. Candidates apply directly to UPSC and appear for written examination conducted by UPSC. On receipt of list of successful candidates in UPSC examination Service Selection

Continued from page 1

WATER HARVESTING : ISSUES, POLICY AND ...**Tanka**

Tanka is the most common rain water harvesting system in the Indian arid region and is a local name given to a covered underground tank, generally constructed for harvesting surface runoff as well as roof water. This system of water harvesting is an ancient practice and is still continued for meeting domestic needs of individuals as well as community.

Kahadin

Khadin is a unique practice of rainwater harvesting and moisture conservation similar to conservation bench terrace. Runoff from the uplands and rocky surfaces is collected behind an earthen bunds of 3 m height and length running 100 to 200m. During monsoon period upland area, which is not affected by standing water, is cropped in kharif season and area submerged during Rabi utilizing stored moisture. Such practices exist in M.P., Bihar and Maharashtra and are known as 'bundhis' and 'ahars'.

Anicut

It is an earth fill structure protected by stone pitching constructed across the small streams/rivulets with a spillway. It holds water on the upstream side during rainy periods. The retained water seeps into the soil profile and helps to replenish adjacent wells. The storage area when free from standing water is cultivated with crops in winter.

Tanks and Lakes

Tanks and lakes are generally constructed on small streams or rivulets with adequate catchment for impounding surface runoff. The stored water is entirely used for ground water recharge through percolation, and also for irrigation of crops on the down stream. These tanks made the villages self sufficient with respect to food apart from providing insurance against drought and floods. Three fourths of the wells are directly or indirectly dependent on them. In short the tanks were the life of the people.

Water Spreading

Water spreading is a practice where floodwater is deliberately collected either from a large area or from stream sources and diverted for spreading as a thin layer over a relatively smaller area by constructing big dikes. Water spreading practices are also adopted to improve rangelands or to enhance overall moisture condition in degraded lands. Moisture thus conserved ensures post monsoon crop without irrigation.

Sub-Surface Barrier or Sub-Surface Water Harvesting:

Sub surface water harvesting systems are designed by constructing sub surface barriers (SSB) by using either clay, stone masonry, polyethylene sheets, brick cement etc. so as to collect sub surface flow on the up stream side and improve water table in the up stream as well as down stream areas. These systems provide a source of quality water for common use and improve its use efficiency as evaporation is totally prevented.

Injection Wells

Runoff water collected from catchment is directly fed to open as well as bore wells so as to replenish the depleted aquifers. The recharge is instantaneous and there are no transport and evaporation losses. The method is very effective in case of highly fractured hard rock and karstic limestone.

Roof top water harvesting

Roof top water harvesting has been a common practice in arid regions where ground water supply is inadequate and surface sources are either lacking or insignificant. This system comprises of G.I. Sheet, aluminum clay files, asbestos sheet or concrete roof as the catchment area, connected by pipes through a filtering device to a storage container.

Big dams

In places where it is not possible to build tanks and in areas prone to scarcity which cannot be provided with water except by transporting it over a long distances, building large reservoirs across the river is necessary and this has gained importance during the period of planned development. Constructing such reservoirs in the past created an irrigation potential of 86.12 m ha. However these structures though considered to be a panacea to our waters needs have created more difficulties than they have solved, necessitating developed strategies to lessen the problems associated.

Ground Water issue

Another solution to the problem of water scarcity has been exploitation of ground water which was tried in the dry belt of Gujarat, Rajasthan and Tamil Nadu. However, this has led to the unexpected problems and development such as; Depletion of water table beyond its replenishment and Unfavorable economics in its use.

Scenario

This bears ample testimony to the art and science that underlie soil and water conservation practiced in the past. Today only a few of such systems are in existence. In most of the cases the catchments have been destroyed either by encroachment or large scale mining, deforestation and lack of maintenance and sediment deposition in the feeder channels. Consequently runoff is accelerated providing very little opportunity for rainwater to infiltrate into an eroded soil. As a result, two situations arise, first the period of base flow of streams is reduced and secondly the ground-water-table drops. In the first situation a larger magnitude of runoff is available over a relatively shorter period that could damage the structures if not well maintained. The increase in the area affected by floods from 6.86 m.ha in 1950's to 16.57 m.ha in 1980's bears ample testimony to the above. The status of irrigation tanks in Karnataka State also reveals the above phenomena. Of the 40,012 tanks in the state nearly 31% (12,512) were not in use due to mismanagement of the catchment. Of the rest 10,086 tanks do not have any organized management. The gross potential area irrigable under tanks in about 0.79 m.ha and as a result of the above dropped to 0.24 m.ha. In the second situation water is available for a shorter period and/or greater effort is needed to pump it or fetch it. This phenomenon is a fact of life in the arid and semiarid region.

Though soil and water conservation programmes to arrest degradation of natural resources were initiated in the 1st five year plan, these have been evolved with emphasis on watershed management including all land uses and water

resource development by 6th plan. At present natural resource accounting and planning for sustainable development is receiving greater attention by the government than ever before. Consequently on the one hand government investment and programmes aimed at land and water conservation and management are being stepped up and on the other greater efforts were being made to integrate these programmes and implement them with the participation of local people.

However, it is seen that in most of the cases that the developmental programmes are not taking into account the native water harvesting systems and their utility while developing the area. As a result many of the systems are either functionally not working or have been damaged very badly in the absence of integrating them with in the overall development of the area on watershed basis.

Some other factors which were responsible for the present status as found in the Water Resource Audit (2000) of KAVVAD Watershed in Karnataka are:

- Less inflow due to intensive drainage line treatment through masonry measures for collection of runoff water to fulfill the need of individuals along the gullies. These structures are of small capacity but get filled 2 to 3 times during the monsoon period affecting water yields into the tank.
- Over exploitation of ground water buffer seems to be positive from the view point of increased irrigated area, a accessibility and equitability in the rural areas but this over exploitation increased hydraulic gradient and lower water table of the region which leads to more percolation of runoff resisting flow into the tank.
- Recent interference in the management of tank has done away the erstwhile community management of tank, which has led to negligence of repair and maintenance of the tanks.
- Failure of tank panchayats - Due to lack of cooperation or enthusiasm on the part of local community to enforce the customary maintenance obligations or for some other reasons the tank panchayats have collapsed.
- People's participation - The present negligence of the traditional water harvesting system is largely due to the absence of feeling among the village community that the water resources belong to them as a common property resource.

Due to above fact large number of water resources now had gone into abandonment or a number of them had lost their storage capacity.

Policy intervention required**1. Improving care for the eco-system service**

The emerging stresses on natural resources and environment are population driven. It is evident that agriculture and poverty are the main factors causing ecosystem stresses and degradation results when land use requirements are not matched by land quality. Degradation of the catchment has not only reduced the productive capacity of the lands on the upstream but also adversely affected the economic life of the water bodies on the down stream. The catchment areas of water bodies need to be afforested with suitable vegetation in relation to socio-economic needs of the

people in general and landless in particular to ensure flow of silt free water. These water bodies thus developed, help to establish favourable micro - climate and reduce water requirements, improve moisture regime in the sub soil which ultimately results in higher bio - mass production and thereby additional opportunities for rural livelihoods through ancillary occupations.

2. Adopting an Ecosystem based approach with in river basin / catchments

The use of land is a down to earth index of civilization, for land has been the silent partner in the rise and fall of civilization. Experience over the last four decades has shown that mismatch between crop production methods and resource characteristics has led to decline in soil depth due to soil losses in fertility distributed hydrological balance and build up of pests and diseases. Shifting to alternative land uses in marginal lands with agro- forestry and agro - horticulture systems that will have less demand on water and equally remunerative would establish the ecological balance. In areas suitable for arable farming it is essential to replace need based farming with science based farming that emphasizes soil and fertility building activities.

3. Empowering people for equitable sharing of water and others natural resources

The history of water management in the past reveals that unless beneficiaries and local bodies are associated in developing water resources and their maintenance, it is not possible to achieve sustainability. The traditional systems are generally characterized by high degree of ecological compatibility requiring little in the form of technology and are therefore easy to realize and acceptability to broad section of the people. It is worth recalling such tried and tested traditional systems which are now at risk by integrating them in to the present development programmes.

Since the water resources are less as compared to demand it is essential to distribute over larger area through judicious use covering more stakeholders to establish social equity in resource sharing by introducing innovative techniques apart from social restrictions. While surface water storages are considered as a community resource, the ground water is considered as individual assets and is being over exploited without any considerations towards its replenishment. As a result the water tables are getting depleted beyond replenishment and also threatening the surface storages. To overcome the above, new initiatives and innovative thinking are needed in all most every field of water management. Initiatives on the part of restricting the density of wells in a given area in relation to climate, geology and soils for establishing equity apart its sustainability. Innovative thinking in terms of water user rings / associations to coordinate its development and use on watershed basis by establishing cooperative irrigation so as to get more crop per drop of water. Even to benefit the catchment farmers, lift irrigation needs to be introduced wherever feasible for ensuring their participation in resource maintenance.

**NATIONAL AUTOMOTIVE TESTING AND
R&D INFRASTRUCTURE PROJECT**
NATRIIP
Driving India Into The Future

**Applications are invited for the post
of Director (GARC) on Absorption /
Deputation/Contract basis.**

Global Automotive Research Centre (GARC) is one of the state of art test center under NATRIIP established by Ministry of Heavy Industries and Public Enterprises, Govt. of India, located at Oragadam near Chennai, Tamilnadu. GARC has the full-fledged R&D and Homologation Test Facilities including the Test Tracks to certify all category of vehicles, systems and components as per national and international. Applications are invited from eligible candidates for filling up the post of Director, GARC (Level- 14) on absorption / deputation / contract basis. The details regarding eligibility criteria, application form, address etc, can be viewed/downloaded from websites www.natriip.in, www.garc.co.in, www.dhi.nic.in & www.dopt.gov.in. Advance applications complete in all respect must be sent to Sr. Administrative Officer by **05th July, 2021** on or before **05.00 PM** on following Corporate office address.

National Water Development Agency

(M/o Jal Shakti, D/o WR, RD & GR, Govt. of India)

ADVERTISEMENT NO. 07 / 2021

National Water Development Agency (NWDA) is an Autonomous Organization under Ministry of Jal Shakti (D/o Water Resources, River Development and Ganga Rejuvenation), Government of India invites online applications from Indian Citizens for the following posts for its Headquarter and various field offices located across the country. The vacancies are tentative in nature and may **decrease or increase** as per requirement of the Organization. The details of posts, age, educational qualification and pay scale/level are given below:

S. No.	Post	Pay Level	UR	OBC	SC	ST	EWS	Total	Upper Age Limit
1	Junior Engineer (Civil)	Level - 6 (Rs.35400-112400/-)	11	01	03	--	01	16	18-27 years
2	Hindi Translator	Level - 6 (Rs.35400-112400/-)	01	--	--	--	--	01	21-30 years
3	Junior Accounts Officer	Level - 6 (Rs.35400-112400/-)	04	01	--	--	--	05	21-30 years
4	Upper Division Clerk	Level - 4 (Rs.25500-81100/-)	07	03	01	--	01	12	18-27 years
5	Stenographer Grade - II	Level - 4 (Rs.25500-81100/-)	03	--	--	01	01	05	18-27 years
6	Lower Division Clerk	Level - 2 (Rs.19900-63200/-)	08	04	06	03	02	23	18-27 years

Those who are interested are required to apply online through the NWDA website www.nwda.gov.in. No other means / mode of submission of applications will be accepted. Selection will be made on the basis of Online Computer Based Test / Examination.

Date of commencement of online application : **10.05.2021**

Last date of submission of online application : **25.06.2021**

For detailed information regarding Eligibility Criteria, Age relaxation, fee, important instructions, scheme of examination, mode of selection etc. candidates can visit NWDA website www.nwda.gov.in.

NBCC (INDIA) LIMITED

(A Government of India Enterprise)

CIN-L74899DL1960GOI003335

Corporate Office : NBCC Bhawan, Lodhi Road, New Delhi-110003

Advertisement No. : 07/2021

Dated : 18.05.2021

NBCC (India) Limited, is a premier Government of India Navratna Public Sector Enterprise under the aegis of Ministry of Housing and Urban Affairs. The Company posted a profit of Rs 79.86 Crores, while its total income is Rs 5210.33 Crores during FY 2019-20. Having an immense strength in the construction sector, NBCC has a PAN India as well as global presence.

Certified with ISO 9001:2015 from the Bureau of Indian Standards in respect of Project Management Consultancy & Execution of the Projects, the Company's present areas of operations are categorized into three main segments, i.e. (i) **Project Management Consultancy (PMC) including Re-Development**, (ii) **Real Estate Development & (iii) EPC Contracting**.

The company requires dynamic and result oriented professionals on regular basis who are passionate to excel & take the organization to new heights.

S. No.	Post / Level/ Scale of pay (IDA) / No. of vacancies	Upper Age as on Closing date	Essential Qualification	Essential Post Qualification Experience
1.	MANAGEMENT TRAINEE (HRM) (E-1) IDA Pay Scale – Rs. 40,000-1,40,000/- No. of Post – 05 (UR-04 & OBC-01) (Including 01 post of PwBD)*	29 Years	Full time MBA / MSW / two years Post Graduate Degree/ Post Graduate Diploma in management from Government recognized University / Institute with Specialization in HRM / PM/ IR as major subject with 60% aggregate marks.	NIL
2.	JUNIOR HINDI TRANSLATOR (S-2) IDA Pay Scale – Rs. 24,640/- (OPEN ENDED) No. of Post – 02 (UR-02) (Including 01 post of PwBD)**	27 Years	Master's Degree in Hindi with English upto Degree level or Master's Degree in English with Hindi upto Degree Level.	01 Year Experience in translation from English to Hindi & vice-versa related to the nature of work in Govt. / PSU.

*For HRM discipline, the following category of disability has been identified for PwBD candidates. a) Locomotor Disability – (OA, OL, OAL, BL including Leprosy cured, Acid Attack Victims and Dwarfism, b) Blind, Low Vision, c) Deaf & Hard Hearing, d) Multiple disabilities – from amongst (a) to (c) above.

**For Junior Hindi Translator, the following category of disability has been identified for PwBD candidates. a) Locomotor Disability – (OL, OA, OAL, BL, including Leprosy cured, Cerebral Palsy, Acid Attack Victims, Dwarfism and Muscular Dystrophy, b) Blind & Low Vision, c) Deaf & Hard Hearing, d) Autism, intellectual disability, specific learning disability and mental illness, e) Multiple disabilities – from amongst (a) to (d) above except Deaf-blindness.

PROCEDURE FOR APPLYING

The Candidates are required to apply online. The relevant link for online application will be made available from 10:00 hrs on 22/05/2021 under the head "CAREER within Human Resources" on NBCC website i.e. www.nbccindia.com. Final Online submission of application will be open till 17:00 hrs on 21/06/2021. No other means/mode of application shall be accepted.

Before filling application online, candidates should keep ready scanned copy of –

- Passport size Photograph (Size 40 KB to 100 KB) & Signature in jpg/jpeg format (Size 20 KB to 50 KB).

- SC/ST/OBC (NCL)/EWS/PWD certificate (if applicable). (Size 100 KB to 300 KB).

Candidates should have valid e-mail ID in operation for more than one year. Fill in the online form with all the relevant details. Upload scanned copy of the photograph; signature, SC/ST/OBC (NCL)/EWS/PWD certificate, (if applicable). Candidates should ensure that the relevant details viz. Name, Date of Birth, Address, etc. entered in NBCC online application form is correct.

Detailed procedure regarding payment of fee is explained under "PAYMENT OF APPLICATION FEE".

PAYMENT OF APPLICATION FEE

- Applicants/Candidates are required to pay a non-refundable amount of Rs.500/- (Candidates will be levied tax/charge from their transaction bank, as applicable). SC, ST, PWD & Departmental candidates are exempted from payment of application fee.
- Candidates are required to make application fee payment through debit card/credit card/net-banking/UPI. The candidates will be automatically redirected to make online payment (wherever fee is applicable), once the form is successfully completed.
- No other mode of payment will be accepted. Application fee once paid will not be refunded under any circumstances. Candidates are therefore requested to verify their eligibility before payment of application fee.

SELECTION PROCEDURE

A. MT (HRM)

The selection criteria for candidates applying for the post of Management Trainee (HRM) will be through Computer Based Test (CBT) followed by Personal Interview. Decision of NBCC will be final in this regard.

Minimum qualifying marks in CBT will be 60%. Candidates who qualify the CBT will be called for Personal Interview in accordance of their category wise merit in the ratio of 1:10. The weightage for written test/skill test followed by interview will be 70% and 30% respectively. The final selection would be done on the basis of total marks secured.

Scheme of Test:

The CBT will consist of 120 multiple choice questions. The duration of CBT will be 120 minutes. There will be no negative marking. The scheme of Test will be as under –

Domain	No. of Questions
Subject related Questions	90
Reasoning	20
General Knowledge	10
TOTAL	120

Mock Test for CBT of 20 minutes duration will be available on the application portal. Candidates may attend the same to familiarize with the CBT.

Examination Centre –

The CBT for the post of MT (HRM) will be conducted in 21 cities namely Delhi, Mumbai, Kolkata, Chennai, Bengaluru, Guwahati, Jammu, Chandigarh, Jaipur, Ahmedabad, Lucknow, Patna, Bhubaneswar, Indore, Pune, Hyderabad, Vishakhapatnam, Kochi, Dehradun, Ranchi & Raipur.

Candidates need to give two cities of his choice for Examination Centre. However, Examination Centre will be allotted based on availability and feasibility of the test centre. The decision of NBCC in this regard will be final.

PLACEMENT - Selected & appointed candidates will undergo comprehensive on the job training during the probation period of one year. Upon successful completion of training, they will be confirmed at E-1 level on the post of Assistant Manager (HRM) in the IDA pay scale of Rs. 40,000 - 1,40,000/- subject to fulfilling the required performance related /

other criterion.

REMUNERATION - During the training / probation period, Management Trainees will be eligible for remuneration consisting of Basic Pay, DA (on IDA pattern), HRA and Perks & Allowances under cafeteria approach. Upon confirmation, besides Basic Pay, DA, HRA and Perks & Allowances, the employees will also be entitled for Performance Related Pay (PRP). In addition to this CPF, Medical facility for self and dependents, Gratuity, Leave encashment is paid as per the rules of the Company.

SURETY BOND - A Surety Bond will be obtained from the candidates upon their appointment as Management Trainee to ensure that they serve the Company for at least 3 years or pay liquidated damages amounting to Rs. 1,50,000/- (Rupees One lakh fifty thousand only) in case they resign earlier.

B. JUNIOR HINDI TRANSLATOR

Selection will be on the basis of performance in Skill Test to be held at New Delhi only. Decision of NBCC will be final in this regard.

The names of shortlisted candidates will be displayed on www.nbccindia.com under head "CAREER within Human Resources". Separate individual e-mails will be sent to the shortlisted candidates. The final selection of the candidates will be based on the performance in the Personal Interview, where after the "Offer of Appointment" shall be issued. Selected candidates will be on probation for one year.

GENERAL INSTRUCTIONS:

- Candidate should read the complete advertisement carefully and ensure that he/she fulfills the eligibility criteria for the posts advertised in all respects.
- Candidates applying for more than one post should apply separately for each post.
- Application received through e-mail will not be entertained. No hard copy of application is required to be sent to any address by post.**
- Fee, once paid, will not be refunded under any circumstances. Candidates are therefore requested to verify their eligibility before paying the application fee.
- Candidates are advised to give specific, correct, full information. All original certificates/documents in support of information furnished in the application form are to be produced at the time of verification of documents, failing which the candidate will be disqualified. Candidate is liable to be rejected at any stage of recruitment process or after recruitment or joining, if any information provided by the candidate is found to be false or is not found in conformity with eligibility criteria mentioned in the advertisement.
- Incomplete application will be summarily rejected. Any request to add additional information in application form after the application has been submitted shall not be entertained in any condition.
- Persons with disabilities can also apply for any of the above post in accordance with government of India guidelines in force. Disability of applicants applying against the posts reserved for disabled persons should not be less than 40%.
- The upper age limit indicated is for general category candidates. Age relaxation for OBC (NCL)/Persons with Disabilities (PWD) will be as per Government guidelines in this regard. OBC (NCL) & PWD candidates are required to upload scanned copy of their caste / disability certificate (as applicable) along with the application form. Age Relaxation for Ex-Serviceman will be service rendered in the Armed forces plus 03 years. Internal candidates (NBCC India Ltd) will be given age relaxation of five years provided they have at least three years of service left before superannuation. Candidates from reserved category such as SC/ST/OBC (NCL) can also apply against the unreserved posts. However, age relaxation will not be allowed to such category candidates against unreserved posts.
- In case of variation in name / surname / name spelling mentioned in the application with that in the respective certificates pertaining to education / professional qualification / caste / etc., the applicant shall be required to submit a certificate from SDM or equivalent to this effect along with the respective documents at the time of verification of documents, failing which the candidature shall be liable to be cancelled. In case of change of surname of female candidates after her marriage, the candidate is required to furnish marriage certificate and notarized affidavit in this regard.
- Relaxation of standard in selection against reserved vacancies, if sufficient number of reserved category persons are not available on the basis of laid down general standards, the general standards could be relaxed suitably to fill up the reserved posts.
- The cut-off date for determining the age limit & post qualification experience shall be the closing date of submission of online application. The date of declaration of result / issuance of mark sheet shall be deemed to be the date of acquiring the qualification and there shall be no relaxation on this account. Post qualification experience on a post / level shall be counted from the said date onwards.
- Candidates working in Government, Semi-Government Organization/Public Sector Undertakings and Autonomous Bodies should apply through proper channel or furnish "NO OBJECTION CERTIFICATE" at the time of document verification.

(c) Age relaxation for government servants up to 40 years as per instructions or orders issued by the Central Government from time to time.

(d) No age relaxation is admissible to SC/ST/OBC/EWS candidates applying against unreserved posts.

4. The lower/upper age limits prescribed for the post i.e cut off date will be 21 days from the date of publication of this advertisement i.e the last date of receipt of application by the appointing authority.

PROBATION PERIOD AND SERVICE LIABILITY

5. All posts are temporary and will be permanent subject to successful completion of probation period of **two years in special cases maximum four years from the physical date of appointment.** Services of persons not found upto the minimum acceptable limit/ not found fit during probation period can be terminated.

6. All defence civilian personnel will be governed by "All India Service Liability Rules" and "Field Service Rules 1957", which will entail transfer of candidates while in service to anywhere in India including peace or field area.

7. Defence civilian personnel of Civil General Transport units are subjected to Army Act 1950 for the matter of discipline (under Gazette Notification SRO No 122 dt 22 Jul 1950) and for all other service matters under CCS (Conduct) Rules 1964.

PHYSICAL / PRACTICAL & WRITTEN TEST

8. The Board of Officer(s) will be detailed to conduct physical and practical tests. No separate marks will be allowed for the practical / physical tests as these will be only of 'Qualifying' nature. Selection to Gp 'C' posts will be made solely based on marks obtained by the applicants in the written test subject to qualifying in the practical / trade/ physical tests, as applicable.

9. Own Risk Clause. The Department will not (WILL NOT) be responsible for any injury sustained by candidates while undergoing physical / practical / endurance test during recruitment procedure and neither will be liable to pay any compensation. Applicants will also be made to sign Indemnity bond to this effect on arrival at the Centre.

10. Physical Test

(a) **For Fireman** – Physical and Endurance test as prescribed in Qualification for Fireman will be conducted by Board of Officer.

(i) Endurance Test :

(aa) Carrying a man (fireman lift of 65.5 kgs to a distance of 183 metres within 96 seconds)

(ab) Clearing 2.7 metres wide ditch landing on both feet (long jumps).

Continued

(ac) Climbing 3 metres vertical rope using hands and feet.

(b) **For All Trades (except Fireman)** - Physical Tests will be carried out as decided by The Board of Officers and will be common for all trades to maintain commonality / transparency of the tests. Candidates will be disqualified immediately on failing to qualify any of the event and will not **(WILL NOT)** be permitted to appear in next event/ subsequent tests. The candidate will be immediately escorted out of unit premises / test venue.

11. Written Test. The written test will form overall merit and minimum passing marks are 33%. The written test will comprise of four parts as per the details mentioned below. The Question-Paper-cum-Answer Sheet of Written Test will be bilingual i.e. in English and Hindi. However, the questions in the portion of English language will be in English and to be answered in English only.

(a) **For All Trades.**

Paper	Subject (All parts will be objective Multiple Choice Type)	No. of Questions	Marks	Minimum Passing Marks	Negative Marking	Total Duration
Part-I	General Intelligence	25	25	33%	0.25 marks for each wrong answer	2 hr
Part - II	English Language	50	50			
Part - III	Numerical Aptitude	25	25			
Part- IV	General Awareness (including trade specific questions)	50	50			
Total		150	150			

(b) **Syllabus for CMD (OG), Vehicle Mechanic, Fireman, Labourer & Carpenter (Commensurate to Educational Standard of 10th Class or Equivalent)**

(c) **Written Test Part-I, II, III & IV Details.**

(i) **Part I - General Intelligence :** It would include questions of both verbal and non-verbal type. The test will include questions on analogies, similarities and differences, space visualization, problem solving, analysis, judgement, decision making, visual memory, discriminating observation, relationship concepts, verbal and figure classification, arithmetical number series, non-verbal series etc. The test will also include questions designed to test the candidate's abilities to deal with abstract ideas and symbols and their relationship, arithmetical computation and other analytical functions.

(ii) **Part II - English Language:** In addition to the testing of candidates understanding of the English Language, its vocabulary, grammar, sentence structure, synonyms, antonyms and its correct usage, etc his /her writing ability would also be tested.

(iii) **Part III - Numerical Aptitude :** This paper will include questions on problems relating to Number Systems, Computation of Whole Numbers, Decimals and Fractions and relationship between Numbers, Fundamental arithmetical operations, Percentage, Ratio and Proportion, Averages, Interest, Profit and Loss, Discount, use of Tables and Graphs, Mensuration, Time and Distance, Ratio and Time, Time and Work etc.

(iv) **Part IV - General Awareness :** Questions will be designed to test the ability of the candidate's general awareness of the environment around him and its application to society. Questions will also be designed to test knowledge of current events and of such matters of everyday observation. The test will also include questions related to India and its neighbouring countries, Sports, History, Culture, Geography, Economic scene, General Polity including Indian Constitution, and Scientific Research etc. These questions will be such that they do not require a special study of any discipline.

12. Selection will also be subject to the following conditions :-

(a) Medical Fitness tests issued by Govt Hospital.

(b) Verification of Character and Antecedents.

(c) Verification of SC/ST/ OBC/EWS status (Belonging / Not belonging to creamy layer)

(d) Verification of Education qualification certificates & Experience certificates.

(e) Verification of driving license by DTO/RTO as applicable.

(f) Verification of all Certificates/document from issuing Authority.

13. Verification of all documents mentioned at Para 11 (b) to (f) are required to be verified by issuing authority within 90 days of initial dispatch of letters to various departments / agencies etc for document verification. In case any / some / all such letters draw no response within this stipulated time the candidature of the candidate(s) will stand cancelled. 90 days time is sufficient for dispatching reminders & leveraging provisions of RTI Act 2005.

14. It may be noted that document verification is just another stage in the selection process. Merely being called for verification of documents does not indicate that his/her name will also appear in the final merit list. Candidature of a candidate may be cancelled at any stage of the recruitment in case of violation of necessary instruction/conditions/eligibility.

CENTRE FOR TESTS

15. Original document verification will be held at **Reception Centre (Recruitment Cell) of 5471 ASC Battalion near Barfani Mandir Opposite SD College, Pathankot Cantt (Punjab)** or at a place decided and promulgated by MG ASC, Northern Command or Nodal Officer on dates mentioned in the Admit Card (Appendix B). Applicants should report to 5471 ASC Bn (MT) or as directed on the date and time of test as mentioned therein. No separate letter will be issued for the same. Admit Card will be dispatched by Speed Post to only those applicants whose applications, all supporting documents are found in order and correct in terms of age, mandatory educational qualification, other parameters as mentioned above. Incomplete applications will be rejected and no correspondence will be made / entertained in this regard. Candidates not in possession of the Admit Card will stand automatically disqualified. The tests will be conducted over a period of six to eight (6-8) days and candidates should be prepared for the same. Advertisement for the selection of Junior Research Fellowship (JRF)

1. Research and Innovation Centre (RIC), a center for excellence involved in research activities in the field of Science and Technology in association with institutes like, IIT, IISc, IIT, NIT, Central & State Universities and other leading Academic Institutions invites applications from candidates having strong desire in pursuing research fellowship in the area of innovative technology and possessing qualifications as under for the position of **Junior Research Fellowship(JRF)**. Initially, the fellowship shall be for a period of two years (extendable as per rules in force). The Competent Authority shall operate a Panel of selected candidates to fill up the JRF position against existing and likely to arise vacancies in the order of merit/discipline for a period of one year from the date of declaration of selective list.

S.No.	Title of Fellowship	Minimum Eligibility Criteria	Desirable Qualification	No.
1.	JRF	Post Graduate Degree in Materials Science/ Physics/Applied Sciences with first class and a valid GATE / NET Score (or) ME/M.Tech Material Science/ Nanotechnology / Sensor Technology with first class both at graduate and post graduate degree and a valid GATE score.	Working experience in thin film deposition techniques, Semiconductor Device & MEMS design tools and device fabrication processes.	01

3. **Upper age limit:** 28 years as on the last date of receipt of application. The upper age limit shall be relaxable to candidates from SC, ST and OBC(NCL) category as per Govt rules in vogue.

4. **Emolument:** Stipend of Rs.31000/- per month plus HRA as applicable.

5. The detailed advertisement with the application form and other prescribed forms are available at www.drdo.gov.in (> What's New > Application for the post of JRF at RIC, Chennai). Interested candidates can also obtain the application form and other details through email: ricadmin@ric.drdo.in

6. The duly filled-in application and self-attested copies of educational qualifications, valid GATE/NET score sheet and experience should reach:

The Director,
Research & Innovation Centre (RIC)
5th Floor, IITM Research Park, Kanagam Road,
Taramani, Chennai-600113

within 21 days from the date of publication of the advertisement in Employment News. The envelope containing application should be superscribed "Application for JRF" at its top left corner.

7. Mode of selection shall be by interview. The Date, time and venue of interview will be intimated to the shortlisted candidates by post and email as well. The interview shall be either in person or through video conference depending upon the situation prevailing at that time due to Covid 19 restrictions.

8. Candidates working in Govt./Public Sector Undertaking/Autonomous Bodies should apply through proper channel. They are required to submit a signed declaration (Annexure 'II') to the extent that they have informed their Cadre Controlling Authority (CCA) about their application for the fellowship in DRDO and required to produce a "No Objection Certificate" from their CCA as per Annexure 'III' at the time of interview as well.

9. The Offer of fellowship is purely of temporary in nature for a limited period as per rules in vogue and does not confer any right for absorption in DRDO.

10. Those who were already awarded JRF position in any of the DRDO Laboratories/Centers earlier, are not eligible to apply again.

11. Candidate need to attach the proof of CGPA to percentage conversion formula from the University/Institution along with the application form.

WATER HARVESTING : ISSUES, POLICY AND ...**4. Raising awareness and strengthening capacity to change human behaviour to reduce water wastage and protect systems**

Village communities need to be integrated more closely with the process of modern development and cooperative endeavor to ensure greater participation of the people and better implementation of the programme specially in the field of water conservation and management to maintain water table and availability of drinking water. As on date in all watershed development programmes drinking water supply and its protection are not considered as an important component. Water conservation is given importance in arable land but not in area habituated. Considerable amount of water can be harvested and managed for well being of the people by harvesting rain and wasted water separately for recharge as well as domestic and productive use. The importance of community participation in sustaining such resources is evident from the following example the Jaisalmer region even though receives 100 mm of rainfall annually the harvested water is enough for all uses through out the year while in the Cherapunji region being the wettest place on the earth faces water shortage even for drinking (occasionally).

The most important factor in development is the ability to make the individual or groups to adapt to changing circumstances and enable them to organize themselves to address the problems and identify and implement appropriate measures.

Training of local and technical manpower involved in management of resources is necessary to ensure proper understanding of the problem and selection of option for overcoming the problem. On farm training should be organized for water users/stake holders from time to time to highlight the importance of resources management and operation.

5. Developing and sharing of technology to improve water resources management

Integrated application of technique of climates, soil water, crop management and necessary inputs through a team work of engineers, agronomist, soil scientist and farmers is very essential for establishing sustainable land use models and water management systems. Some of the issues that need attention are as given below.

- It is necessary while drawing up a watershed development plan attention should be given to the restoration of

bunds and desiltation of the tank bed and also equal importance for afforesting the catchment area in such a way that it reduces soil erosion but allows sufficient water flow passed harvesting structures.

- Investigation of the existing system of distribution of water for various purposes in the command area, identifying the area for water conservation, and an understanding of socio-economic needs of the population.
- There is now an urgent need to develop location specific integrated development packages for rain water harvesting on watershed basis.
- Efforts should be made for conjunctive use of rain, surface and ground water depending upon the quality, quantity and feasibility of water resources.
- Efficient water application methods such as drip and sprinkler irrigation should be adopted especially for plantation crop so as to cover more area under irrigation with the rainwater harvested.
- In some areas, water can be harvested with in the soil in streams with sand bed, by sub surface barriers by locally available material like clay soil, this system will check evaporation and deep percolation losses.
- Injection wells can be considered to

feed water with low silt load directly into the depleted aquifers by providing a conduit access or rain water can be conserved in the ground through defunct well by artificial recharging method.

6. Creating political will and good governance

Water harvesting programmes should be made as peoples programme in which Government should participate. This can be achieved only through formation of village level societies to ensure effective utilization of harvested water resources proper maintenance and operation of the system including catchment protection and command area development.

Decentralized public administration structure with reallocation of efforts to the level at which problem is being experienced with simultaneously improvement in crucial services such as rural extension service, rural information system and rural financial system.

To conclude that there are immense possibilities that exist in managing the resources to achieve the sustainability but we only need to carve out the opportunities.

CAREER IN INDIAN ARMY

Board (SSB), interview is conducted at any of the four Service Selection Centres under the aegis of Directorate General of Recruiting (DG Rtg). Final merit list is prepared based on written & SSB marks and the candidates who have been found fit in medical examination are given joining letters as per merit and vacancy.

For Non UPSC Entries, notification is published under the aegis of Directorate General of Recruiting six to eight months in advance. Applications are invited online on www.joinindianarmy.nic.in. Short listed candidates on the basis of cut off percentages are then directed to undergo Service Selection Board (SSB). Interview is conducted at Service Selection Centres. Merit list is prepared based on marks scored in SSB and candidates who have been found fit in medical examination are given joining letters as per merit and vacancy.

For various Departmental Entries, applications are invited by respective line directorates processed, compiled and forwarded to DG Rtg for conduct of SSB interview. SSB marks are forwarded back to respective line directorates to prepare final merit list for induction of candidates.

SSB Interview: There are a total of four Service Selection Centres under the aegis of DG Rtg, one each at Prayagraj, Bhopal, Bengaluru and Kapurthala. After batch planning at DG Rtg, candidates are given 15 days to one month notice to appear for SSB interview at any of the Selection Centre. Process at Selection Centre is of five days as under:-

Stage 1

- Day 1 - Arrival, documentation, opening address, Stage 1 Test and dispersal of candidates not recommended for Stage 2.

Stage 2

- Day 2 - Psychological Test and Interviews
- Day 3 - GTO-1 Task and Interviews
- Day 4 - GTO-2 Task and Interviews
- Day 5 - Board Conference, declaration of results, documentation of successful candidates.

Medical Examination: Special Medical Board (SMB) is conducted at local military hospital over a period of five to six days. Unfit candidates can request for Appeal Medical Board (AMB) within seven days from SMB and can complete their AMB at designated Command Hospitals. Candidates declared unfit by AMB can challenge the findings and seek Review Medical Board (RMB) within 24 hours of AMB. Applications for RMB are forwarded to Directorate General of Medical Services (DGAFMS) where decision to grant RMB is taken to be conducted at Army Hospital (R&R) New Delhi and Armed Forces Medical College, Pune.

Issue of Joining Instructions: A detailed dossier check of merit listed candidates is carried out at DG Rtg. Candidates fulfilling the complete eligibility criteria are then issued the joining instructions to report for training at respective Pre-Commissioning Training Academies (PCTA) i.e. National Defence Academy, Khadakwasla (Pune), Officers Training Academy (Chennai), Officers Training Academy (Gaya) and Indian Military Academy (Dehradun).

Eligibility criteria for various entries can be checked on DG Rtg website www.joinindianarmy.nic.in.

Career as Person Below Officer Ranks (JCOs/OR)

The Indian Army offers a variety of opportunities for youth to join in as Junior Commission Officer (JCO) and Other Ranks (OR) under JCOs/OR categories. Now, opportunity for female candidates to join the Indian Army in PBOR category

also exists for induction into Corps of Military Police (CMP). Various entries under JCOs/OR category are as under:-

- Soldier General Duty (GD)
- Soldier GD (Women CMP)
- Soldier Technical (Tech)
- Soldier Technical (Tech) Aviation Ammunition Examiner.
- Soldier Clerk
- Soldier Store Keeper Technical (SKT)
- Soldier Nursing Assistant (NA) & Soldier Veterinary (Vet)
- Soldier Pharmacist
- Soldier Tradesman (8th Class Pass & 10th Class Pass)
- Havildar Surveyor Auto Cartographer (SAC)
- Havildar Army Education Corps (AEC)
- JCO Religious Teacher (RT)
- JCO Catering

Recruiting Organisations & Process

- The Indian Army has 11 Zonal Recruiting Offices (ZRO), two Gurkha Recruiting Depots (GRD), one Independent Recruiting Office (IRO) and 59 Army Recruiting Offices (ARO), in addition to 47 Regimental Centres (RC) which carry out recruitment in their respective areas. Rallies are organised in a manner to ensure that candidates from each district get one chance to attend a recruitment rally each year in addition to recruitment by Regimental Centres.
- Recruitment is carried out through open rally system under the aegis of DG Rtg. Process commences with candidate's online registration on DG Rtg website www.joinindianarmy.nic.in and application for particular recruitment rally. Approximately 45 days time is allowed to the candidates to register online before conduct of the recruitment rally. AROs issue admit cards to the candidates who complete

their online registration and application process. At the rally site candidates are put through initial screening, document check, physical fitness test, physical measurement and medical examination.

- Candidates declared fit at rally site thereafter appear for written examination at designated location and a final merit list is prepared. Selected candidates are dispatched to respective Regimental Centres for Basic Military Training by respective ARO.

Eligibility criteria for various entries can be checked on DG Rtg website www.joinindiaarmy.nic.in.

■ DCGI approves Phase II/III clinical trial of Covaxin in the age group of 2 to 18 years

Drugs Controller General of India (DCGI), after careful examination, has accepted the recommendation of Subject Expert Committee (SEC) and accorded permission to conduct the Phase II/III clinical trial of Covaxin in the age group 2 to 18 years, to its manufacturer Bharat Biotech Ltd on May 12, 2021. The trial will be conducted in 525 healthy volunteers and the vaccine will be given by intramuscular route in two doses at day 0 and day 28.

■ 1.5 lakh units of Oxycare Systems to be procured through PM CARES

PM CARES Fund has accorded sanction for procurement of 1,50,000 units of Oxycare System at a cost of Rs. 322.5 crore. It is a comprehensive system developed in two configurations by DRDO to regulate oxygen being administered to patients based on the sensed values of their SpO2 levels. DRDO has transferred the technology to multiple industries in India who will be producing the Oxycare Systems for use all across the country.

■ PM Modi speaks with Bhutanese counterpart, discusses COVID-19 situation

Prime Minister Narendra Modi held a telephonic conversation with his Bhutanese counterpart Lotay Tshering on May 11, 2021, where the latter expressed solidarity with the Government and the people of India in their efforts against the recent wave of COVID-19 pandemic. PM Modi also appreciated the leadership of His Majesty the King in managing Bhutan's fight against the pandemic and extended his best wishes for the continuing efforts. Both the leaders noted that the present situation has served to further highlight the special friendship between India and Bhutan, anchored in mutual understanding, shared cultural heritage and strong people to people links.

■ Nearly 34.57 lakh farmers benefited from ongoing Rabi Marketing Season procurement operations: Govt

The Government has said that procurement of wheat in ongoing Rabi Marketing Season 2021-22 is continuing smoothly in the procuring States and Union Territories. The Ministry of Consumer Affairs, Food and Public Distribution in a statement on May 12, 2021 said that till now a quantity of over 341.77 lakh metric tonnes of wheat has been procured against the last year corresponding purchase of 252.51 lakh metric tonnes. The Ministry said nearly 34.57 lakh farmers have already benefited from the ongoing Rabi Marketing Season procurement operations with an MSP value of over Rs. 67,499 crore.

■ Cabinet approves signing of MoU between ICAI and QFCA

The Union Cabinet has approved signing of Memorandum of Understanding between Institute of Chartered Accountants of India, ICAI and Qatar Financial Centre Authority, QFCA on May 12, 2021. The MoU will endeavour to increase opportunities for members of ICAI to provide professional services through setting up practice for providing professional services in Qatar in the areas of assurance and auditing, advisory, taxation, financial services and allied areas.

INTERNATIONAL

■ Bangladesh conducts first test run for Metro train in Dhaka

The test run of the first electrical metro train in Bangladesh was conducted in Dhaka. Road Transport and Bridges Minister, Obaidul Quader inaugurated the metro rail test run virtually. Six coaches of the metro train, imported from Japan, left the workshop in Diabari in Dhaka to travel about 500 metres at slow speed. After the 'receiving inspection', the trains will go through a functional test followed by a performance test in August. However, the commencement of metro services in Dhaka may take another six months to a year to complete all the required tests and trial runs. Bangladesh is building a 21-kilometre-long Mass Rapid Transit system from the capital's Uttara to Motijheel at a cost of Tk 22,000 crore.

■ EU members welcome India's efforts to distribute COVID-19 vaccines to over 90 countries

The European Union has welcomed India's efforts to produce and distribute COVID-19 vaccines to over 90 countries through its 'Vaccine Maitri' initiative. In an India-EU hybrid meet on May 8, 2021 in Portugal's Porto, in which Prime Minister

Narendra Modi took part virtually, the leaders agreed that as the world's two largest democracies, they have a common interest in ensuring security, prosperity and sustainable development in a multi-polar world. A joint statement released after the meet said that both India and EU supported universal, safe, equitable and affordable access to COVID-19 vaccines, diagnostics and treatments, and the strengthening of health systems, and acknowledged the key role of the Access to COVID-19 Tools Accelerator (ACT-A) in this regard.

■ Foreign Secretary Shringla welcomes new US Charge d'Afaires Ambassador

Indian Foreign Secretary Harsh Vardhan Shringla on May 10 welcomed the newly-appointed Charge d'Affaires of the US Embassy in India, Daniel B. Smith during a virtual interaction. The spokesperson for the Ministry of External Affairs said both the officials agreed to work together in enhancing vaccine and essential pharma cooperation, including raw materials supply to effectively deal with the coronavirus pandemic. The spokesperson further said that the Foreign Secretary conveyed to Mr Smith India's appreciation for the assistance provided by the US in dealing with the current wave of the pandemic and that both are looking forward to maintaining the upward trajectory of the strategic partnership.

ECONOMY

■ UN says India will be world's fastest growing major economy in 2022

The United Nations has said that India will be the world's fastest growing major economy in 2022. In its mid-year update of the World Economic Situation and Prospects (WESP), the UN projected that the Indian economy will grow at 10.1 per cent in the calendar year 2022.

■ Govt relaxes provisions of Income-tax Act

In view of COVID-19, the Government has relaxed the provisions of the Income-tax Act under which hospitals, nursing units, dispensaries and COVID care centres will now be able to accept cash over two lakh rupees from the patients. Patient and the payee will have to submit PAN and Aadhaar for such payments. The relaxation has been granted between April 1 to May 31, 2021.

■ Central Government to issue Sovereign Gold Bonds

The Sovereign Gold Bonds will be issued in six tranches from this month to September 2021. The Ministry of Finance in a statement said that the date of subscription of the Tranche 2021-22 series-I will be from May 17 to 21, 2021 and date of issuance will be May 25, 2021. The Sovereign Gold Bonds will be sold through Scheduled Commercial Banks, Stock Holding Corporation of India Limited, designated post offices and recognised stock exchanges.

SPORTS

■ Manchester City crowned 2020-21 English Premier League champions

Manchester City were crowned the English Premier League champions for the third time in four seasons after Manchester United crashed to a 2-1 defeat against Leicester City. Pep Guardiola's side missed the chance to get over the line on their own terms in a home date with Chelsea as they slipped to a 2-1 defeat against fellow Blues. Old adversaries Manchester United, however, brought the race for Premier League title to a close as they came unstuck against Leicester City, who scored a 2-1 win behind goals from Luke Thomas and Caglar Soyuncu to mathematically seal City's triumph. This is Manchester City's fourth Premier League title.

■ Alexander Zverev beat Matteo Berrettini to clinch his 2nd Madrid Open title

German world number six Alexander Zverev beat eighth-seed Italian Matteo Berrettini to clinch his fourth Masters 1000 crown and second Madrid Open title. After beating top-seeded Rafael Nadal in the quarterfinals and fourth-ranked Dominic Thiem in the semi-finals, Zverev rallied to defeat Berrettini 6-7 (8), 6-4, 6-3 in the summit clash. In the Men's Doubles final, Marcel Granollers of Spain and Horacio Zeballos of Argentina defeated Nikola Mektic and Mate Pavic of Croatia 1-6, 6-3, 10-8. In Women's Singles, Belarus' Aryna Sabalenka turned the tables on world number one Ashleigh Barty 6-0, 3-6, 6-4 to clinch the title.
